Badu[®]Jet Turbo Pro

SwimJet System

SPECK X

The ultimate resistance swimming system.

Features

- 1,500 Gallons per Minute for Professional Performance.
- Propeller-Driven Design for Clean, Turbulence-Free Flow.
- Multiple Speeds for Any Level of Swimmer.
- Intuitive Controls both Underwater and on Your Phone.
- Permanent Magnet Motor for Extremely Quiet Operation.
- Innovative Direct-in-wall Design Eliminates Costly Plumbing.
- Large Anti-Entrapment Cover for Safety and Peace of Mind, Made of Durable Marine Grade 316 Stainless Steel.

Installation Specifications

The BaduJet Turbo Pro should ideally be incorporated into the design phase of the pool.

- Requires a straight wall within the pool for installation with a clear unobstructed area in front of it measuring 8 ft wide x 20 ft long x 3 ft deep for it to be used to its full potential.
- BaduJet Turbo Pro Housing measures 60" x 17" x 16"
- A vault measuring 24" x 24" x 32" should be built behind the BaduJet Turbo Pro, allowing access to the motor and proper drainage. We recommend using a 26" x 26" HIDE Access Cover Kit (HAC26-0.8) over the vault. **Proper drainage is extremely important.** Motor damage due to flooding will not be covered under warranty.
- BaduJet Turbo Pro draws 29 Amps and requires a 40 Amp service.

The BaduJet Turbo Pro system is provided with installation instructions for various pool construction types. They can be installed on either new or existing pools, and on any style; but are intended for gunite or fiberglass builds.

Read all instructions before installing.

Part Number

Order #	Description
JS443-9411T-100	BaduJet Turbo Pro SwimJet System (1500 GPM) - Jet Housing, Control Box with WIFI, Motor, and Variable Frequency Drive. System is packed in two boxes and shipped via truck line.

Consult your physician before attempting any strenuous exercise. This product may not be challenging or satisfying for all levels of exercise.
